- **Jeanette Griffiths**  
**SkyBlue IMS**

Business Benefits

**Understanding the importance of fostering environmental learning to our kids in the local community**

Community Benefits

**Environmental learning for the children attending Bushbury Hill Primary School.**

### **A New Shelter for Learning**

As part of the business's annual Sustainability Week, SkyBlue Credit Control Advisor Melissa Farrell and SkyBlue IMS Manager, Jeanette Griffiths along with 16 enthusiastic SkyBlue people helped to build a pergola in time for the colder months.

Four teams from SkyBlue Head Office at Birch Street, Wolverhampton, built a pergola in the Bushbury Hill Primary School garden as well as pruning the garden and raise planting beds.

The SkyBlue team secured gardening tools and equipment free of charge, thanks to usual supplier Speedy Hire in Wolverhampton.

"The children are now able to walk in and out of the trees and bushes to explore and learn. The children's outdoor learning environment can now be more frequently used in all weathers.

"The pergola provides both shade and shelter and the raised beds gives the children the opportunity to grow their own fruit, vegetables and flowers – an essential part of their education" explains Mrs S Cheyne, Bushbury Hill Primary School Headteacher.
